

Início

```
graph TD; Inicio([Início]) --> SelecionarAlerta[Selecionar alerta]; SelecionarAlerta --> InformarMotivo[Informar motivo do descarte]; InformarMotivo --> AtualizarStatus[Atualizar status para Descartado]; AtualizarStatus --> RegistrarHistorico[Registrar histórico]; RegistrarHistorico --> Fim([Fim]);
```

This flowchart illustrates a five-step process for handling an alert. It begins with an oval node labeled 'Início' (Start). An arrow points down to a rectangular process node 'Selecionar alerta' (Select alert). Another arrow points down to a second rectangular process node 'Informar motivo do descarte' (Inform reason for dismissal). A third arrow points down to a third rectangular process node 'Atualizar status para Descartado' (Update status to Dismissed). A fourth arrow points down to a fourth rectangular process node 'Registrar histórico' (Register history). Finally, an arrow points down to an oval node labeled 'Fim' (End).

Selecionar alerta

Informar motivo do
descarte

Atualizar status para
Descartado

Registrar histórico
